

### **The Wine List.**

For some, this is the most exciting part about going out, for many, it's the most daunting.

For many years, our wine list has been really big. It's fluctuated between 300 and 400 wines, which is a lot of wine to flick through when all you want is a nice glass of wine. Much like wine that expresses itself differently when grown in different places, so too a wine list should be an expression of where it's from, who visits the restaurant and what they expect.

So, after about many years of having lots of wine, we now have around 150. Set out in the simplest form we can, set out to make reading it easy, and choosing something delicious even easier. Whilst we still have lots of wine in our cellar, what is on offer will change as wines come in and out of favour and are drunk by happy customers.

What won't change is our commitment to high quality, expressive wines, that suit not just our food, but also, the people that make Bottega the success that it is.

Salute!

### **Choose your own adventure.**

Actually, this section is nothing like those cute books at all. I should call it, "If you are open minded to fun booze we will choose your adventure for you". But that is not very catchy, is it? So, Choose your own adventure is about leaping blindly into the vinous abyss. Choose a style, a price and we bring the wine to you, all wrapped up, so you can play guess the wine, drink and never know what it was ( that would take some self control) or have it revealed as it gets to the table. It's fun.

White 1.	I bet you can't guess what it is	50
White 2.	medium bodied, delicious, a little unusual	60

## Bigger fuller and some orange ones too

The "not orange" and the "orange" descriptors below need some explanation. For those that know about these wines, this note is irrelevant, but for the other 99.5% it's worth a little read. Orange is a place in NSW and these wines have nothing to do with that at all. The wines below that are orange, are white wines that have spent a long time "on skins", and the colour over time has turned orange. A quasi controlled oxidation if you will. It's a big thing at the moment, the wine world is divided and they are at the very pointy end of what's cool. It's hard to describe them, but essentially they are rich, full bodied, textural wines, not too dissimilar to red wine. Both are ridiculously hard to get and will polarize any audience. The Gravner is arguably the epitome of this style of wine, the Serragghia is the most challenging wine I have ever had.
